EDUCATION

University Al Azhar Indonesia | Informatics | GPA: 3.65/4.00

Sept 2023 - Present

Area of Interest: An Informatics student from Al-Azhar Indonesia University with basic skills in UI/UX design, data processing and analysis, and website or application performance and usability analysis. Experienced in developing simple websites and applications with a structured and user-oriented approach. Interested in digital technology development, strong analytical skills, and a strong learning spirit to continuously improve technical and professional skills. Strong communication and collaboration skills.

EXPERIENCE

Members of the Voting Organizing Group (KPPS) | KPU

Jan 2024 - Feb 2024

- Improve communication and coordination skills, particularly in serving people from diverse backgrounds and conveying information clearly and accurately.
- Cultivate discipline, accuracy, and responsibility, particularly in carrying out procedures, administration, and managing important and sensitive documents.
- Gain experience working in a formal environment with demanding timeframes, thereby accustoming you to working neatly, orderly, and according to procedures.

Ambassador | University Al Azhar Indonesia

Nov 2023 – Jan 2026

- Report document about new student on University Al Azhar Indonesia.
- Serve as a point of contact for prospective students, answering their questions and providing information about the university.
- Share personal experiences and insights about student life, academic programs, and extracurricular activities at the university.
- Engage with current students, faculty, and staff to gather feedback and improve the university's offerings and services.
- Assist with the onboarding process for incoming students, including registration, housing, and orientation.
- Act as a liaison between the university and local high schools, community organizations, and other stakeholders.
- Continuously seek opportunities to enhance the ambassador program and improve the overall effectiveness of student recruitment efforts.

**Data Analyst Intern | Lembaga National Single Window (LNSW),
Ministry of Finance of Indonesia**

Marc 2026 – Jun 2026

- Analyzed Contact Center e-COO email data using Large Language Models (LLMs) to evaluate the accuracy of email categorization performed by service agents.
- Performed data cleaning, preprocessing, and exploratory data analysis on email and ticket datasets using Python and Pandas.

- Developed an automated email classification system by integrating LLM APIs and implementing prompt engineering techniques.
- Evaluated model performance using confusion matrix, accuracy, precision, recall, and F1-score metrics.
- Designed an information extraction system to identify key details from ticket messages, including document numbers, sender names, destination countries, and issue categories.
- Built and managed SQLite databases to store structured extraction results for further analysis.
- Created rule-based classification models to categorize e-COO issues and support operational insights.
- Developed data visualizations and analytical reports to identify trends, issue distributions, and service performance indicators.
- Collaborated with mentors and data analytics teams to improve AI-driven solutions for Contact Center operations.

HRIS Intern | PT.Pratama Mitra Sejati

15 Juni 2026 - 14 Okt 2026

- Developed and improved the Payroll and Payslip features on the company's internal HR system, Tugurent.com.
- Managed and maintained contract employee data, ensuring data accuracy and consistency.
- Performed data validation and verification to ensure employee information was accurate and up to date.
- Conducted functional testing and bug identification specifically for the Payroll and Payslip features.
- Assisted in managing and maintaining the database related to employee.
- Used **Visual Studio Code, Laravel, MySQL, phpMyAdmin, and GitHub** to support feature development, database management, testing, and implementation.

ORGANIZATIONS

Public Relations and Advocacy Division | HMIF UAI

Okt 2024 – Jan 2026

- Manage the organization's internal and external communications to build a positive image and effectively convey information to members and relevant parties.
- Design and implement publication strategies and communication media (social media, posters, and informational content) to increase the organization's visibility and participation.
- Serve as a liaison between organization members and external parties in conveying aspirations, input, and relevant information.
- Systematically collect, process, and channel member aspirations as material for advocacy and organizational decision-making.
- Collaborate with other divisions to support work program implementation through coordinated communication and clear information delivery.
